

5Problem 1 solution:

User Action	System Response
1. User types in PIN into the main screen	1. System checks validity of PIN and presents options to user on another screen
2. User selects "Withdraw Money" option	2. System asks user to enter the withdrawal amount
3. User enters withdrawal amount	3. System checks if sufficient balance is available
4. User confirms the transaction	4. System dispenses money and updates account balance
5. User chooses whether to print a receipt	5. System prints the receipt if chosen, then displays an option to perform another action or exit.
6. User ends session	6. System displays a goodbye message and ejects the card.

Problem 2 solution:

3. The Project Management Tracking System

4. Properties Management System

Classes:	Properties
Admin	TotalRent
Properties	Address,
Houses	LostSize, Rent
Condominiums	Floors, Rent
Trailers	Rent
